Overview

My primary interest is in the area of Block Chain and Computer Networking. I have experience with computer science for
over 3 years, going through several topics. I am now adept with technical abilities, including languages Java, Javascript,Solidity, development tools (remix,truffle) . I find myself ambitious when it comes to BlockChain. It is a vast and constantly improving field, hence I find it very amusing.

EDUCATION

Rajalakshmi Institute of Technology, Chennai — *B.E in Computer Science*

May 2022 | Cum. GPA: 7.56 / 10

Velammal Vidhyashram, Chennai — *12th*

May 2018 | Cum. GPA: 7.1 / 10

PROJECTS

FACE RECOGNITION USING OPENCV & PYTHON —2021

Description (group Project)

Real-time multiple Face Detection and Recognition using OpenCV and Python.

I trained the model to recognise my family members using a pipeline of multiple steps.

Face detection(haar cascade and frontal face detector).Find the landmarks in the face

Worked with

· Programming Languages(Python)

· Library(OpenCV, dlib, scikit-learn)

· Development Tools(Atom)

SKILLS

PROGRAMMING:
Java · Solidity · Front-End
·Python
Familiar:
C · Reactjs · MySQL ·node.js
 · OpenCV
INDUSTRY SKILLS
· Programming
· BlockChain
· Web Development

COURSEWORK

ONGOING:

Block Chain Specialisation on Coursera

Aruba networking basics on Coursera

Linux on Cisco

Microsoft Excel

Cloud Computing

INTERESTS

·BlockChain

· Computer Networking / Cloud computing

· Front -End
